1. NATIONAL ACADEMY OF VETERINARY SCIENCES (INDIA) - Orientation and brief History

Prof. Dr. R.N. Kohli

1.1: BACKGROUND

The National Academy of Veterinary Sciences (India) - an apex premier agency for the development of veterinary sciences in India was established on lines similar to the National Academy of Medical Sciences by a few eminent visionary veterinarians to promote and consolidate the scientific views on policy matters related to Veterinary Science and Animal Husbandry and to strive for advancement of livestock sector in national economy through promotion of animal welfare. It has been registered by the Registrar of Societies, Delhi vide Registration Certificate No. S-2/4471 of 1993 dated 7th July 1993 and has emerged as the largest think-tank of all branches of the profession for research & development departments of the country engaged in animal husbandry & veterinary sectors.

The Academy was established to promote the interests of veterinarians in the country and was launched with Dr. Chinta Mani Singh, regarded as the doyen of Veterinary Services in India, as its Founder President. The Academy was formally inaugurated by Hon'ble Minister of State for Animal Husbandry and Dairying (Independent Charge) Government of India, Dr. Raghuvansh Prasad Singh on 18th December 1996 in Vigyan Bhawan, New Delhi, and the Scrolls of Fellowship to the duly elected National Fellows/ Members during 1994-95, were presented to them by the Hon'ble Minister at the Investiture ceremony. The following are the aims and objectives of the Academy.

1.2: OBJECTIVES

- Promotion of Knowledge of Veterinary Sciences in India and its practical application to problems of National welfare.
- The recognition and encouragement of merit in all branches of Veterinary Sciences.
- To secure co-ordination between Veterinary and other scientific academics, societies, associations, institutions and Government Veterinary/Animal Husbandry and scientific departments and services.
- To seek help and co-operation of international agencies and national bodies of other countries.
- To act through properly constituted national committee for veterinary scientific subjects for undertaking such Veterinary Scientific work of national and international importance as the Academy may be called upon to perform the public and the Government.
- To publish such proceedings, abstracts, journals, memoirs, transactions and other publications as may be found desirable

- To promote and maintain a liaison between Veterinary Medicine and other sciences.
- To secure and manage funds and endowments for the promotion of the objectives of the Academy, and
- To undertake any other steps that may assist in, conducive to, or be necessary for the fulfillment of the above mentioned Aims and Objectives of the Academy.

Note: Initially, the following objective was also included in the ‘Memorandum of Association’ but was subsequently dropped during the tenure of the next managing body elected in 2004:

“To develop pattern(s) of a high level postgraduate examination on an all India basis in various disciplines of veterinary Sciences to ensure uniform standard of postgraduate veterinary qualification for which an appropriate machinery may be established”.

1.3: OFFICE ACCOMMODATION

Since the Founding President of the NAVS, Dr. C.M. Singh, concurrently held the position of President, Veterinary Council of India (VCI) also, the Academy was registered C/o the VCI, and the NAVS functioned from the VCI premises at 16/15, Western Extension Area, Arya Samaj Road, Karol Bagh, New Delhi from 1993-2002. Thereafter, the premises of the VCI were shifted to August Kranti Bhawan, Bhikaji Cama Place, New Delhi. However, in May 2003, the VCI asked the NAVS to shift its office to some other place. Accordingly, the moves were initiated to shift the office of the Academy to some other place. However, the Governing Council meetings of the Academy were allowed to continue to be held in the VCI premises. During March 2004, the Governing Council decided to conduct the elections, which were held from 1st April 2004. Unfortunately, the Founder President Dr CM Singh expired on 29th June 2004. As the VCI had expressed its inability to let the Academy use its premises, the Academy temporarily functioned from the premises of Hind Agro Industries Ltd (HAIL), B-3, Friend’s Colony (West), Main Mathura Road, New Delhi, courtesy Mr. Sirajudin Qureshi, Managing Director, HAIL and courtesy the newly elected President of the Academy (Dr. S.K. Ranjhan), who was also associated with HAIL. However, the Academy did not succeed in finding a suitable location during the tenure of this as well as the next Governing Councils elected for the periods 2007-10 and 2010-13. The Governing Council meetings were held during this period in various venues in the premises of VCI, IDA, RVS, NASC etc., using the courtesy of these organizations. Governing Council and General Body meetings of the Academy were also held at the venues of NAVS Convocation-cum-Conventions at different institutions in various states of India. The next Governing Council (elected for 2014-2016), which took charge on January 1, 2014 was headed by the then DDG (Animal Sciences), ICAR (Dr. KML Pathak) was successful in getting an office room allotted to NAVS in the NASC Complex in New Delhi by the Secretary, DARE and Director General, ICAR (Dr. S. Ayyappan). The office of National Academy of Veterinary Sciences (India) was inaugurated by Hon’ble Dr. S. Ayyappan, Secretary, DARE and Director General, ICAR on 15th January 2014 at NASC Complex, in the presence of Shri Arvind Kaushal, Additional Secretary, DARE and Secretary, ICAR, Dr. A.K. Srivastava, Director, NDRI, Karnal, Dr. R. P. Singh, Secretary, IAUA, and NAVS Office Bearers and

members of the Governing Council headed by Dr. K.M.L. Pathak. It was indeed a matter of pleasure that the Academy got an office of its own after 20 years of its inception with the kind support of Dr. S. Ayyappan. The Academy profusely thanked Dr. Ayyapan for providing the office space to NAVS. The NAVS office was soon equipped with essential furniture and fixtures and its current address is: National Academy of Veterinary Sciences (India), G-4, A- Block, NASC Complex, DPS Marg, Todapur Village, New Delhi-110 012.

1.4: MANAGING /GOVERNING BODY

At the same meeting Dr. NN Pathak was elected as Secretary with effect from 23-5-2008. On 6th July 2009 the Governing Council nominated Prof. Dr. R.N. Kohli as Secretary for its remaining term, as Dr. Pathak was finding it difficult to function from Bareilly. At this meeting Prof. Kohli was also nominated as the founder Editor of the

Academy for a three-year term. Since then the activities of the Academy including its publications have significantly accelerated.

1.6: PUBLICATION HISTORY

NAVS (I) published an Information Bulletin during the tenure of the founder president of the Academy, Late Dr. C.M. Singh. It was probably released between 2001 and 2003, although no date is mentioned in the booklet. It contained the Aims and Objectives, Memorandum of the Association, and Rules and Regulations of the Academy, apart from the lists of Fellows and Members inducted in 1996,

1997-98, 1998-99 and 1999-2000. The second Governing council took over in 2004 and the Academy published Year Book 2006 and Year Book 2007 between 2004 and 2007, in which the information was updated to include the lists of Fellows and Members inducted in subsequent years. Publication of a brief printed Newsletter was also commenced on 1st September 2004 but the publication was discontinued after the issue dated 28th December 2007.

Due to various problems, including financial constraints and unavoidable changes in the composition of the third Governing Council, the Academy did not bring out any publication during the 2008 and 2009 calendar years. On 6th July 2009, the Governing Council of the Academy, for the first time, nominated/elected the Founder Editor of the Academy, and decided to not only to up date the lists of Fellows and Members, but also to present this data in an alphabetical order. Thus the first **alphabetical NAVS Directory 2010** was printed, published and distributed in early 2010 with the hope that its reader friendly presentation of contents would enhance the level of professional and personal communication amongst the fellows/members themselves as well as with other professional bodies and institutions. This was followed by the publication of electronic versions of three **Information Bulletins** (including a **Prospectus**) in the same year.

In accordance with the decision taken by the fourth Governing Council in its meeting held on 17th February 2011, publication of an **electronic version of a quarterly NAVS Newsletter** was commenced, It is being emailed by the editor not only to the Fellows

and Members of the Academy, but also to several other veterinary and allied institutions as well as to a large number of desirous veterinarians and allied professionals. It is also being posted on the Academy's website: www.navsindia.org. The Academy has also published several booklets including a **Communication Directory**, **Policy Papers**, **Proceedings** of Expert Consultation Meetings, and **NAVS Rules and Regulations** during period 2014 to 2016. The present **NAVS Hand Book - 2016** is the first ever publication of this nature and magnitude brought out by the Academy and fulfills a longstanding demand of the Indian Veterinary Academicians, living in India and abroad. For the detailed list of all publications of the Academy from its inception till date, please see the back cover of this Handbook.

1.7: ACKNOWLEDGEMENTS

At the time of publication of the first alphabetical directory itself in 2010, it was decided to commence a gradual transformation of the contents of the future publications by including a brief profile of the fellows and members, apart making some other changes, a start of which had already been made in the aforesaid directory by including the profiles of the members of the governing council and of the most recent fellows elected in 2008-2009. It was thus stated in the editorial that "Future editions will ultimately cover all the fellows and the members".

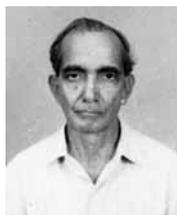

Ever since I took over as NAVS Secretary-cum-Editor in 2009, there has been a general expression of desire from the Fellowship for publication of this type of Hand Book. However, despite abundance of specific encouragement and efforts from the past two Governing Councils presided over by Dr. R.R. Shukla and Dr. M.P. Yadav, the idea did not fructify earlier due to justifiable reasons. It goes to the credit of the present president, Dr. KML Pathak, to have taken a leading initiative in this direction to fulfill the dreams of the two past NAVS Presidents and members of their councils, as well as that of the Editor, apart from many others in the Academy. We took up the challenge to prove the president's assertion that I could do the job single handedly. In fact he was sure, more than me, in this assertion. I am profoundly grateful to him for his inspiring encouragement. I am also grateful to the past NAVS Presidents mentioned above by name, for always appreciating my work and for their trust in me. I am also grateful to Dr. Lal Krishna for constant encouragement and co-operation since 2009. I am extremely thankful to the fellows and members of the Academy for their co-operation in this exercise and am sorry if I have annoyed some of them by my constant time bound requests with regard to the quality of their profiles. Despite care taken to avoid, some mistakes might have crept in the hand book for which I alone take full responsibility and seek your pardon. Some of the fellows could not be reached and a few others were unable to send us their profiles, obviously for justifiable reasons. The Academy would be 25 years young in 2018 and I propose that the next more inclusive and better edition with the profiles not only of all the Fellows but also of Members and Associate Members be brought out then to celebrate the occasion.

We thankfully acknowledge the assistance of Mr. Naveen Joshi (ICAR) and the co-operation of printers in compilation and printing of this Hand Book.

(Prof. Dr. R.N. Kohli is the Honorary Founder Editor of the Academy)
